

WISH YOU WERE HERE

REGENCY
kitchens of distinction

Regency Kitchens

Glued and dowelled for the ultimate solid, rigid construction

Do you wish your kitchen supplier provided expertly constructed kitchens, manufactured to the highest standards?

Regular monitoring and a process of continuous improvement guarantees Regency Kitchens maintains its **superior quality standards** and excellent customer service.

Strict quality control procedures provide reassurance of the **durability and reliability of Regency's kitchens**. The focus on quality and performance is endorsed by the accreditations held.

The FIRA Gold Award is the highest level achievable for kitchen cabinet construction, workmanship and fitness for purpose.

Regency Kitchens supports and is committed to the environmentally appropriate, socially beneficial and economically viable management of the world's forests by compliance with the requirements of the FSC.

Regency Kitchens adheres to continual investment in design, materials, construction and processes that conform to BS EN ISO 9001:2000.

The award of BSI Kitemark fully endorses Regency Kitchens commitment to provide consistently high quality products and services that conform to the necessary safety and performance requirements.

Quality comes from within at Regency Kitchens.
